Symphoni with
PiLOT Break-Fix

Secure, Shared Device Management

Our smart lockers offer secure, rapid access for various users, with designated bays for guests and support staff.

- Illuminated locker bays for optimal visibility and external LED status
- RFID card or PIN access for staff and registered users; auto-generated PINs for others; designated access for guests and support personnel
- Each locker bay has one USB-A, and USB-C smart port with device identification and status information
- 5/10 locker bay control units expandable by 6/12 locker bays to meet specific capacity needs
- Full Metal Construction
- Lifetime Frame Warranty

Symphoni iOS with PiLOT BreakFix

Our intuitive, iOS-based software empowers you to monitor device status, assign lockers, and manage access permissions across your entire organization, simplifying workflows and reducing administrative overhead.

- Cloud-based management software, Symphoni iOS (with PiLOT Break Fix), provides intuitive device management via a user-friendly 10" iOS touchscreen interface, supporting diverse organizational workflows
- Centralized Dashboards: Provides a single view for system monitoring and management across all lockers within organization
- Multi-lingual interface
