INTUITIVE DEVICE MANAGEMENT SIMPLIFIED.

Your one-stop solution for seamless shared device management.

PowerTechnologies

PT-PRO-Series™: An All-in-One Solution for Shared Device Management

Powered By *Symphoni*™

Symphoni™ iOS empowers IT with enhanced visibility, control, and streamlined device management for **PT-PRO-Series**™ lockers via a user-friendly interface and a flexible cloud API for custom integrations.

Secure Rapid Deployment

Assigned users can access lockers via RFID card or PIN. Guests may access locker bays via PIN codes, while Support Hub personnel use designated, auto-generated support codes.

Device Charging

Each bay includes one USB-A port and one USB-C smart port, with device and charging status identification when supported by the connected device.
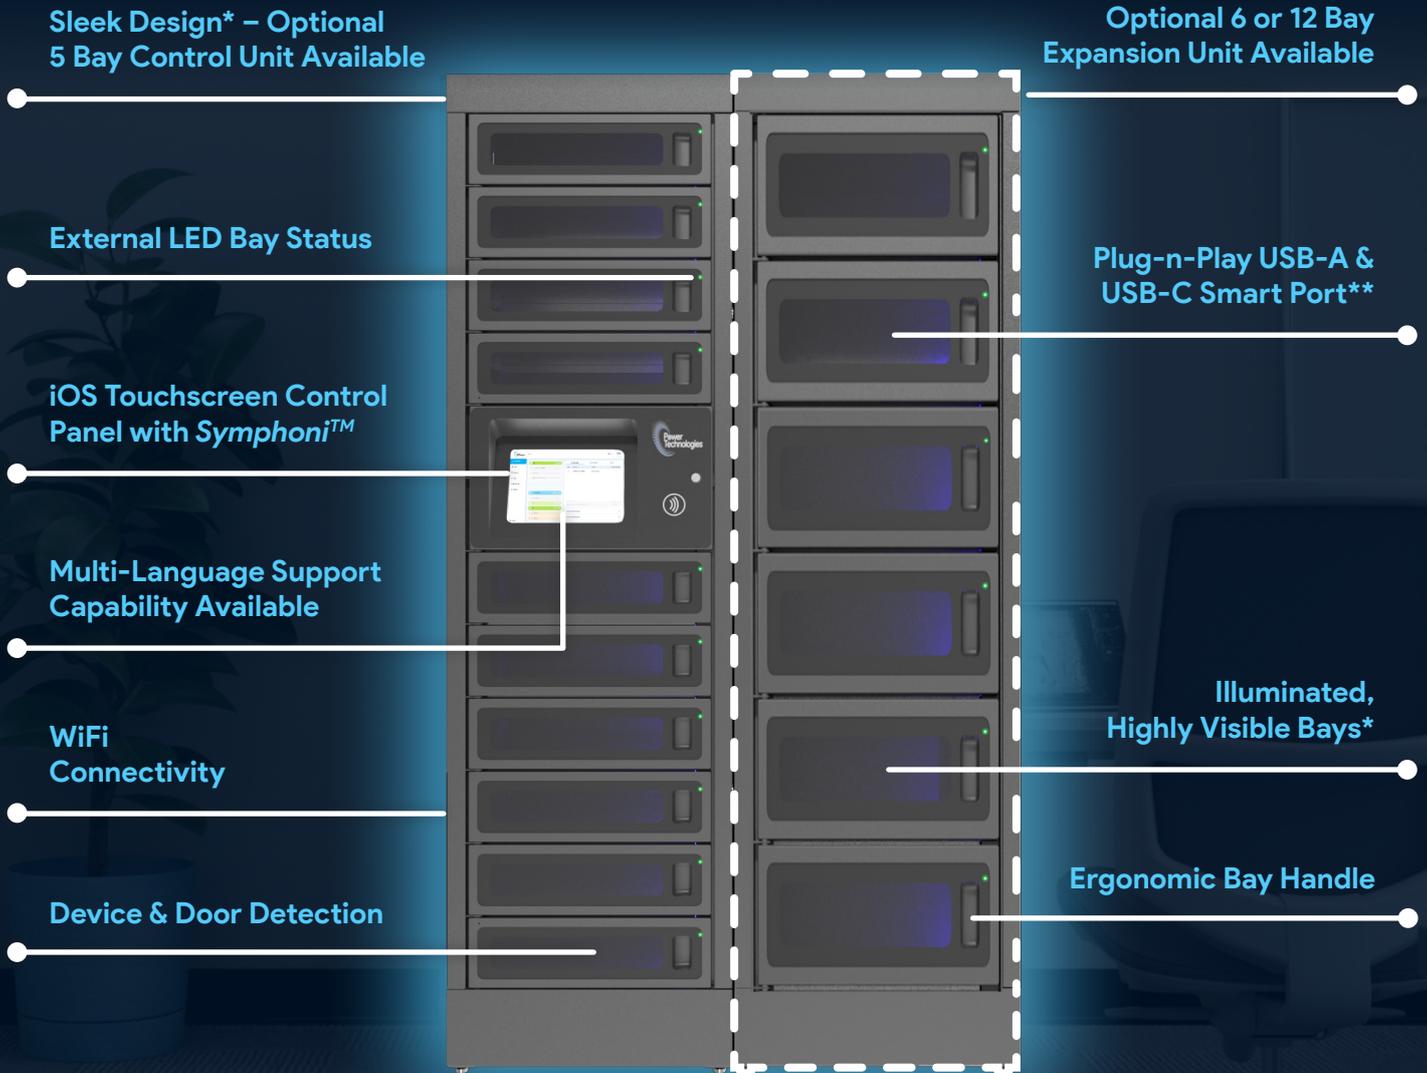

Customizable

Choose either a large 5-bay or standard 10-bay control unit as the base for your locker. You can then expand this base unit with a large 6 or standard 12-bay expansion unit to create a customized configuration that fits your exact needs.

Seamless Shared Device Management with *Symphoni*™ iOS

Our intuitive iOS-based software *Symphoni*™ offers unparalleled device management flexibility. Cloud-connected, access powerful dashboards, organizational views, and actionable insights for fleet optimization. Offline, maintain seamless control over workflows, bay designations, and access permissions.

Critical insights, including real-time charging status and device identification, are unlocked exclusively through the USB-C smart port, when allowed by connected device. This data empowers informed decisions on device health and utilization, ensuring optimal performance, regardless of network connectivity.

Locker ships 100% assembled with software installed.

Discover the transformative power of *Symphoni™* at your fingertips

Cloud-Based Fleet Management

Centralized control of lockers and devices worldwide.

User and Device Management

Assign users to bays and track device usage and mange device deployment/exchanges.

Data Analytics

Gain insights into locker usage patterns and device health.

Online/Offline Capabilities

Ensure seamless operation even without constant internet connectivity.

Security

Implement robust security measures to protect devices and data.

*PT-PRO-Series™ Locker-10

Streamlining IT Operations with Intuitive Workflows

! Offline
Bay locked out by Admin and cannot be used.

👁 Assigned
Bay has been assigned to a specific user and/or device.

Accessibility
Bay flagged for users with accessibility needs.

Guest
Bay assigned to Guest Mode and can be accessed by anyone for a period of time.

PiLOT
Bay designated to be used with PiLOT Break-Fix module.

Elevate Your IT Support

> **Reduce Downtime:** Quickly identify and resolve issues to minimize disruptions.

> **Improve User Satisfaction:** Provide a seamless and efficient support experience.

> **Increased IT Productivity:** Streamline workflows and automate routine tasks.

> **Data-Driven Decision Making:** Leverage detailed reports to optimize IT operations.

> **Enhanced Security:** Implement robust security measures to protect sensitive assets.
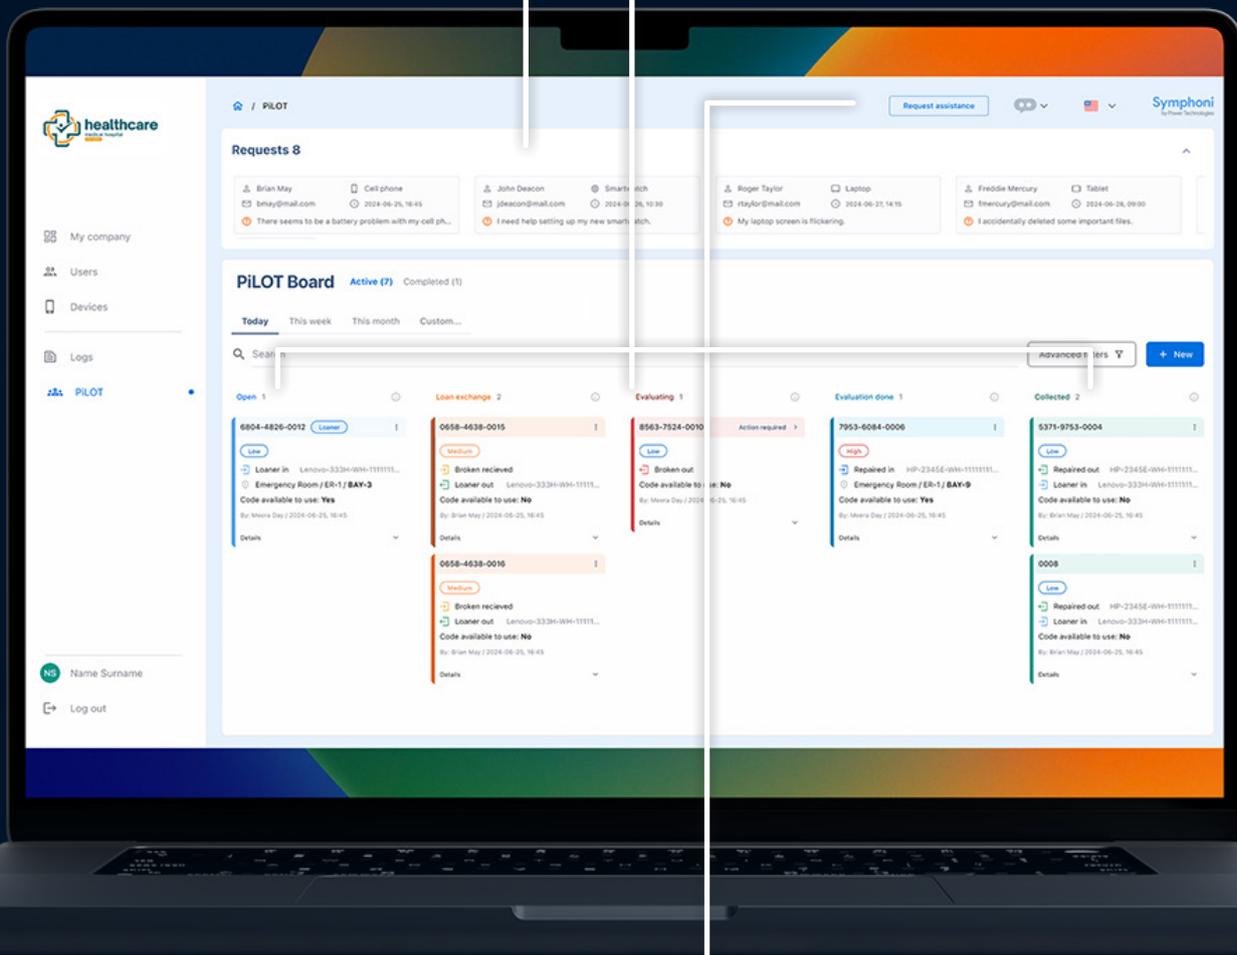

Symphoni™ with PiLOT Break-Fix
(The Future of Device Management)

Proactive Management
IT can prioritize and resolve break-fix operations directly from the top of the dashboard.

Intuitive Workflow
PiLOT provides an intuitive workflow, clearly displaying open tickets, device exchange status, evaluation progress, and return readiness for IT operations.

Detailed Reporting
Generate insightful reports to identify trends and improve future performance. Detailed reports track device service and return metrics.

24/7/365 Support
With PiLOT Break-Fix, provide 24/7/365 support; rapid device deployment, custom alerts, and reduced on-site IT.

Symphoni™ with PiLOT Break-Fix provides 24/7/365 support.

Functionality enables businesses to operate seamlessly even after hours and on holidays. This includes rapid device deployment or exchange, custom alert notifications, and reduced on-site IT reliance.

Power Technologies® Advantage

Security and Compliance

Secure and Reliable Charging
Protect your devices with robust security features and reliable power management.

Performance and Reliability

Efficient Space Utilization
Maximize space efficiency with our modular design and compact footprint.

User Experience and Support

Easy Management
Monitor and control your charging infrastructure with our user-friendly interface.

Functional Requirements

Sustainable Charging
Reduce energy consumption and minimize your environmental impact while extending the life of your devices.

Power Technologies® Difference

Trusted worldwide
